| Report title Indicator | Water Consumption Report, v1.1 1.18.2, 1.18.5 |
| :---: | :---: |
| Instructions | This template is intended for reporting feed mill water use results to ASC. Indicate in table 1 the production year and total production volume in the production year, in metric tonnes. The production volume is the total feed production on-site. The total water use and total water use per tonne of feed is calculated automatically. |
|  | In table 2, specify the water use ('Quantity used') by water source consumed during the production year, including all water used across all production on-sites. Water use should be based on water withdrawal minus discharge, rather than based on estimates of water consumed. |
|  | List all water sources, separated into the categories "freshwater" and "other water" ("freshwater" is categorised as $\leq 1,000 \mathrm{mg} / \mathrm{L}$ Total Dissolved Solids, and "other water" is categorised as $>1,000 \mathrm{mg} / \mathrm{L}$ Total Dissolved Solids.), used during the production process, from ingredient receiving to final product dispatch. The water use per source per tonne of feed per year is calculated automatically. |
|  | In table 3, specify whether the site is operating in a region of "high" or "extremely high" water stress, according to the Aqueduct Water Risk Atlas. |
|  | Link to Aqueduct Water Risk Atlas |
|  | Notes: Water volume is reported in mega litre (ML). One mega litre is equivalent to $1000 \mathrm{m3}$ or 1000000 litre. <br> Only enter data in blue cells. |

Table 1. Production year, production volume and total wate
Year of production (yyyy)
Total production volume (metric tonnes)
Total water use (ML)
Water use per tonne (ML/tonne)

| 2023 |
| ---: |
| 31206 |
| 185 |
| 168.7367186 |

Table 2. Water use by source and category
Water source (select)

| Water source (select) | Caterory (select) | Quantity used (ML) | Water use per source |
| :---: | :---: | :---: | :---: |
| ground water sources (e.g. wells) | fresh water | 19.168 | 0.000614241 |
| ace water sources (including from wetlands, rivers, lakes, collected/harveste | fresh water | 165.771 | 0.005312152 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |
|  |  |  | 0 |

Table 3. Water stress
Is the feed mill operating in a region of 'high' or 'extremely high' water stress? (select)
